

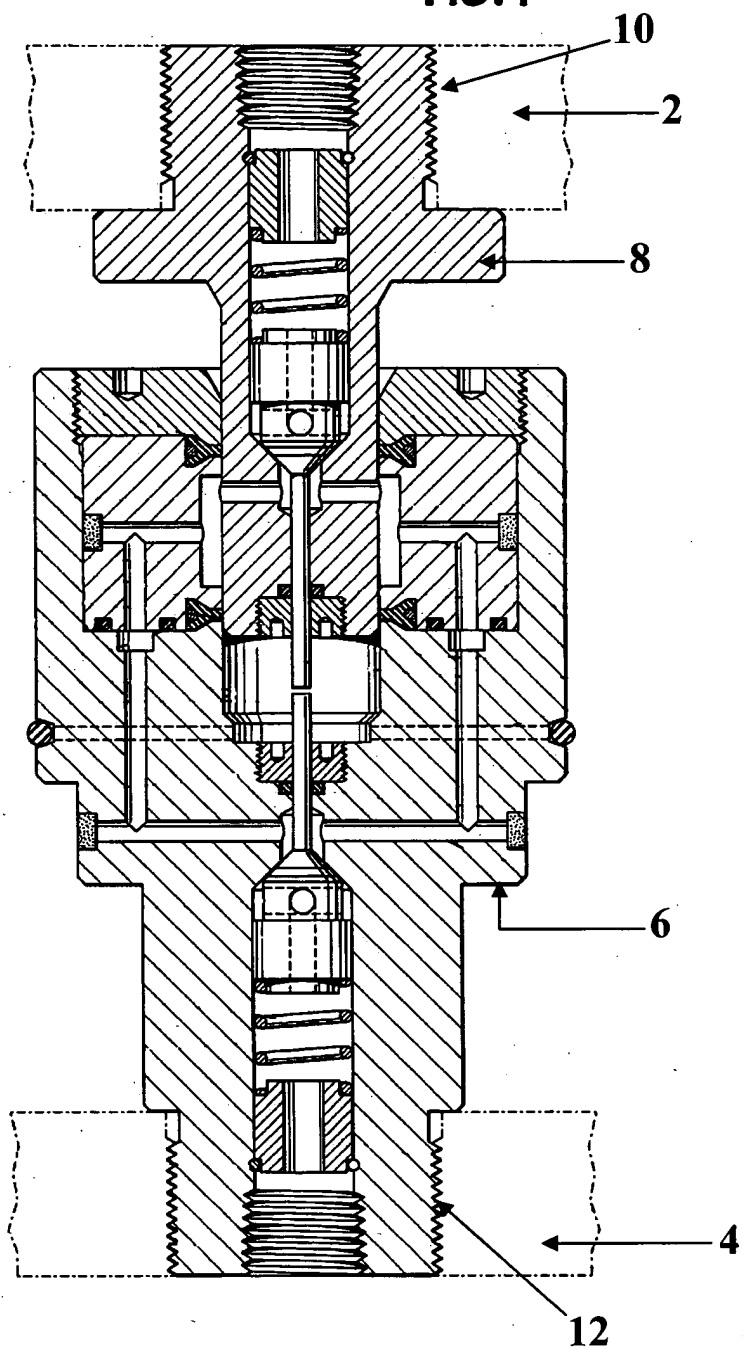

FIG. 1

This diagram shows a cross-sectional view of a mechanical assembly. A central shaft (14) passes through a housing (16). The housing has a central bore (18) and a flange (20) at the bottom. The shaft has a flange (22) at the bottom. The housing is shown in cross-section with diagonal hatching. A bracket (30) indicates the housing assembly. The shaft is shown in cross-section with a central bore (24). The housing has a flange (26) at the top and a flange (28) at the bottom. The shaft has a flange (22) at the bottom. The housing is shown in cross-section with diagonal hatching. A bracket (30) indicates the housing assembly. The shaft is shown in cross-section with a central bore (24).
